

## What is Fast Glass?

A fast-acting cleaner for glass, stainless steel and chrome surfaces, FAST GLASS removes soilage from windows and display cabinets without leaving streaks.

### Key Benefits

- ✓ FAST GLASS attacks dirt fast
- ✓ FAST GLASS evaporates quickly, so less wiping is required
- ✓ FAST GLASS is non-streaking
- ✓ FAST GLASS is not classified as Dangerous Goods
- ✓ Sparkling glass and mirrors

## How Does It Work?

FAST GLASS removes oil, greasy films, lipstick, finger marks and all other soilage from windows and display cabinets without leaving any filmy streaks. FAST GLASS leaves glass windows and mirrors clean and sparkling.

### For Use On...

FAST-GLASS can be used on glass, stainless steel and chrome surfaces.

## Technical Data

### Properties

COLOUR – Clear blue liquid  
ODOUR – Alcohol odour  
pH = 10.7 – 11.7  
SHELF LIFE = Minimum 2 years (5°C - 50°C)

### Environmental Care

FAST GLASS conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. FAST GLASS is non-flammable, phosphate-free and biodegradable. FAST GLASS containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

## Colour Coding

Product identification is made easy with the Agar Colour Coding system. We have 11 different categories of

product that are identified by colour and number. The product itself has this colour. Also, the colour and number are shown:

On the bottle label as supplied.

On the matching Dispenser Spray Bottle.

On the product chart for Colour Coded Cleaning.

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

Product	Code Colour	Code Number	Type
FAST GLASS	Light blue	5	Glass cleaner

FAST GLASS is a Colour Code 5 (light blue) product

## Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

## Application

Spray a light mist onto the surface then polish dry with a paper towel or clean, lint-free cloth.

In the unlikely event that any films or smears remain on the glass, simply repeat the application and polish again to remove all remaining traces of soilage.

**Available in: 5L, 20L**

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
