

What is Fresh Mop?

A fragrant, concentrated cleaner designed for cleaning polished floors by mop. It provides a pleasant perfume without leaving any residual films on polished surfaces.

Key Benefits

- ✓ FRESH MOP is a highly active low alkaline detergent – dilutes up to 1:80
- ✓ FRESH MOP is safe for use on sensitive surfaces
- ✓ FRESH MOP is ideal for mopping – rinse free
- ✓ FRESH MOP is effective in hot or cold water
- ✓ FRESH MOP is based on regrowable raw materials
- ✓ FRESH MOP is biodegradable
- ✓ FRESH MOP is economical, non-toxic and mild
- ✓ FRESH MOP is versatile and leaves a lingering perfume

How Does It Work?

FRESH MOP is a lemon scented neutral cleaner that will remove fats, oils, dirt, spillages, vehicular road dirt, floor traffic, soilage and spills of all kinds.

For Use On...

Polished floors, tiles, fittings, windows, ducting, walls and paintwork. FRESH MOP is safe on terrazzo, marble and slate, cars and trucks. FRESH MOP is ideal for any surface not harmed by water.

Technical Data

Composition

FRESH MOP is a clear red liquid containing a blend of biodegradable non-ionic and anionic detergent concentrates to penetrate and remove both organic and inorganic soils. It also contains a high percentage of essential lemon oils to produce a fresh citrus fragrance, together with water softeners and colour. It lifts greasy soils and rinses them clear away.

Properties

- COLOUR – Mobile red liquid
- ODOUR – Fresh lemon scent
- pH = 9.5 ± 0.5
- FOAM – Solutions exhibit good foam levels with high foam stability

Environment

FRESH MOP conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. FRESH MOP is non-flammable, phosphate-free, fully biodegradable and based on natural, regrowable resources. FRESH MOP containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

Colour Coding

Colour Code

1

Product identification is made easy with the Agar Colour Coding system. We have 11 different categories of product that are identified by colour

and number. The product itself has this colour. Also, the colour and number are shown:

1. On the bottle label as supplied.
2. On the matching Dispenser Spray Bottle.
3. On the product chart for Colour Coded Cleaning

This system has benefits of reducing the chance of using the wrong product, making compliance and staff training easy, showing that the correct products are being used and providing information about usage, dilution and first aid.

Product	Code Colour	Code Number	Type
FRESH MOP	pink	1	All purpose and floor cleaners

AUTOSCRUB is a Colour Code 1 (pink) product.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.

Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements" .

First Certified: 30 April 1996

SAI Certificate No.: QEC7358

Application

For general cleaning of floors, walls, glass etc. dilute 1 part of FRESH MOP with from 40 to 80 parts of water, depending on soilage. This is about 2/3 cup per wringer bucket of water.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products.
