

**RITZY** Creamy Cleanser

**Product Data Sheet** 

Product Code: RIT

Page | of | Issued: February 7, 2013

## What is Ritzy?

RITZY is a citrus-perfumed creamy cleanser for use in cleaning and polishing porcelain, enamel and other hard surfaces. RITZY contains no chlorine.

#### **Key Benefits**

- ✓ Rapidly attacks soil and makes cleaning easier
- ✓ Soft, mildly abrasive
- ✓ Fresh perfume
- ✓ Rinses free with no residue

# How Does It Work?

RITZY is specially designed creamy cleanser that combines the cleaning power of anionic and non-ionic surfactants (detergents), builders and buffers (to attack fatty materials) with a mildly abrasive polishing agent to help gently scour the soils and stains off the surface being cleaned. It also contains small amounts of perfume and preservative.

#### For Use On...

RITZY is designed for use on vitreous enamel baths and basins, shower recesses, chrome taps, ceramic tiles, stainless steel benches, sinks, taps and basins. It may be used on all hard, shiny surfaces. RITZY may be used on laminate benchtops such as Formica® or Laminex® but should be used with only gentle wiping and no rubbing hard in one spot.

RITZY is not to be used on aluminium or other easilyscratched surfaces such as acrylic, fibreglass and silver.

## **Technical Data**

#### Properties

COLOUR – Opaque, white creamy liquid ODOUR – Fresh, citrus perfume  $pH = 10.5 \pm 0.5$ FOAM – High foam height

#### **Environmental Care**

RITZY conforms with all statutory environmental requirements. It is based on safe ingredients selected to perform efficiently so there is no waste or damage. RITZY is non-flammable and biodegradable. RITZY containers will be cleaned and reused if returned to Agar Cleaning Systems Pty Ltd., significantly reducing plastic usage and waste. They can also be recycled.

### Quality

The design, manufacture and supply of all Agar chemical products is controlled by the Agar Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 "Quality Management Systems – Requirements".

First Certified: 30 April 1996 SAI Certificate No.: QEC7358

## Application

- Always pre-test RITZY in an inconspicuous area before use on a new surface. Make sure no change in gloss or colour occurs. Do not use the product if it is unsuitable.
- Squeeze RITZY onto a damp sponge or cloth, or, pour some RITZY directly onto the surface being cleaned.
- Wipe until the surface is clean, then rinse down with clean water.
- If cleaning stainless steel, always rub in the direction of the grain. Avoid hard rubbing on one spot.
- If cleaning laminate benchtops, wipe with a gentle action and do not rub hard in one spot.
- After storage for a long time, settling may occur. Always shake the bottle before use to ensure it is properly blended.

Agar Cleaning Systems maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Agar Cleaning Systems recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
